PRODUCT SELECTION GUIDE

QUALITY STONE VENEER
REPLICATIONS

Born in the mountains of East Tennessee, Smoky Mountain Cast Stone has improved the natural process of stone making. The key to replicating every detail, nuance and distinctive look in our stone is the use of natural stones to create our high quality molds.

Our pride of craftsmanship and attention to Customer Service ensures the success and beauty of your stone project. By choosing Smoky Mountain Cast Stone for your stone veneer needs, you will have the quality look and feel of natural stone.

STONE STYLES

STACK STONE

Our Stack Stone Collection is a regional favorite with its long narrow lines. It can be grouted or dry-stacked for that Appalachian look.

Sizes range from 2 to 4 inches in height and 3 to 20 inches in length.

RIVER ROCK

Our River Rock Collection is a Smoky Mountain Classic and replicates stones that have been washed and tumbled for ages. This face profile stone ranges in size from 3 to 20 inches. River Rock Skimmers, an edge profile stone, is available in limited production quantities to enhance our River Rock Collection.

Skimmers with River Rock

STONE STYLES

WEATHER LEDGE

Our Weather Ledge Collection is a larger style stone with a weathered eroded texture designed to give your project a moderate shadow relief whether dry-stacked or grouted. Sizes vary from 1½ to 7 inches in height and 4 to 20 inches in length.

RELIEF STONE

Our Relief Stone Collection is a deep profile rustic stone primarily used with other stone styles (Stack Stone & Weather Ledge) to add depth and shadow. Stone depth varies from 2 to 3 inches and size range from 4 to 20 inches. Limited production availability.

FIELD STONE

Our Field Stone Collection is a split-faced irregularly shaped stone that can be used alone or with other styles to add character and variety. Sizes range from 4 to 20 inches.

ACCESSORIES

Smoky Mountain Cast Stone offers a variety of accessories to enhance your home. This collection includes hearthstones, window sills, drip ledges, wall caps, outlet, light, and water spigot stones. All accessories can be made in any color.

HEARTHSTONE

Our Hearthstone has a textured face and chiseled edge and can be easily cut to size for any installation requirement. Sized at 19 X 20 X 1½ inches thick, they can also be used as patio pavers.

WALL CAP

Our wall cap with its textured surface and draft for water runoff is a perfect solution to top off any wall project. They come in two sizes, 15 X 24 X 2 inches and 12 X 24 X 2 inches.

ACCESSORIES

OUTLET BOX STONE

Our Outlet Box Stone single or double outlet box sizes. The boxes are mounted directly in the stone for easy application and a finished look after installation.

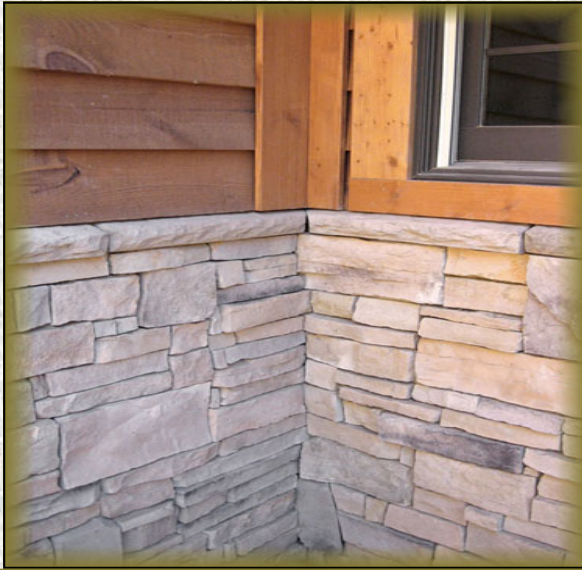

LIGHT BOX STONE

Our Light Box Stone comes with a round box fixture mounted directly in the stone. Once installed, the finished look is exceptional and professional.

Right: Finished with Light Fixture (not supplied)

ACCESSORIES

WINDOW SILL

&

DRIP LEDGES

Our Window Sills are 24" X 3" thick. They have a textured face and drafts for water runoff. Drip Ledge is the same texture and length with a narrower width of 2".

Drip Ledge application shown left.

SPIGOT STONES

Our Spigot Stone is a flat stone with a split hole in the center - for a custom fit around your water spigot. Once installed, the stone looks seamless.

Above: Finished with Spigot

COLORS

Smoky Mountain Cast Stone comes in several standard color collections including: Rustic Tan, Celtic Gray, Highland Sunset, and Autumn Mist. Stone collections can be combined for a custom appearance. Our stone products are colored throughout the entire stone for a more natural installation.

Custom color blends are also available. We can highlight the stone with a variety of color shades, ranging from tan, to green, to dark brown or even rose tones.

We recommend a visit to our showroom to choose the colors from actual stone veneer samples.

PRODUCT COLORS ARE AS ACCURATE AS CURRENT PHOTOGRAPHY ALLOWS, WE RECOMMEND REVIEWING PRODUCT SAMPLES BEFORE SELECTING COLORS.
